

## Press Release

### **Van Lanschot Kempen selects Amundi Technology's ALTO Investment to strengthen and enhance its operating model**

**London, Amsterdam, 2 December 2025** - Van Lanschot Kempen Investment Management (Van Lanschot Kempen), a leading Dutch wealth manager, has selected Amundi Technology's ALTO Investment platforms as its new portfolio management system across all of its investment management business lines.

ALTO Investment is a modular, cloud-native SaaS platform developed by Amundi Technology to address the needs of asset managers and asset owners. The platform delivers integrated data management services across the entire investment management value chain with investment decision support tools, pre- and post-trade compliance, performance and risk analytics, and middle-office services. Its flexible architecture supports both front-office workflows and consolidated middle-office operations, enabling scalable, standard-based processing, while accommodating proprietary datasets. This partnership with Van Lanschot Kempen consolidates Amundi Technology presence in the Netherlands, reflecting the ongoing focus on European markets.

Under a fully integrated model, Van Lanschot Kempen will rely on ALTO technology, serviced by Amundi Technology, for front to middle office functionality. The solution combines Amundi's market-standard data management best practices with Van Lanschot Kempen's proprietary data and investment processes.

The ALTO integration will enable Van Lanschot Kempen to efficiently manage its multi-line investment organisation, including its fiduciary activities and multi-layer investment structures. Portfolio managers will be able to manage a wide range of asset classes. This is all done within a single, unified system.

The platform transition aligns with Van Lanschot Kempen's long-term strategy to ensure a resilient operating model and deliver continuous improvements in service quality and operational efficiency.

**Benjamin Lucas, CEO of Amundi Technology:** "I'm very proud to partner with Van Lanschot Kempen and am confident that Amundi Technology's data-driven platform will help future-proof their operating model. This partnership marks an important milestone for us in strengthening Amundi Technology's presence in the Dutch market."

**Gijs Spijkers, Managing Director Investment Management Technology at Van Lanschot Kempen Investment Management:** "As investment manager we are constantly improving how we operate to deliver better outcomes for our clients. The implementation of Amundi Technology's ALTO Investment platform will improve efficiency throughout our investment lifecycle, with a strong focus on delivering the best client experience."
